**The 30th Anniversary of Yotopoulos and Nugent**  
**"Economics of Development: Empirical Investigations"**

**Date: August 8, 2007**

**Conference Venue: Conference Room, 6<sup>th</sup> floor, Faculty of Economics, University of Tokyo**

In the last three decades, there has been remarkable progress in the field of development economics, particularly in microeconomic and empirical macroeconomic approaches. One of the roots of such progress can be traced back to the celebrated book, Pan A. Yotopoulos and Jeffrey B. Nugent "Economics of Development: Empirical Investigations," Harper & Row, published in 1976. The work blazed a new "empirical trail" in development economics. This conference is held in commemoration of the 30<sup>th</sup> anniversary of the publication of the book.
